CONSULTANCY ANNOUNCEMENT

Location: Kosrae, FSM

Duration: March 2021 – June 2021 (4 Months)

Consultancy Fee - \$45,000.00

The Pacific Ridge to Reef – International Waters (R2R-IW) Project is a regional project, nationally implemented as National Demonstration Projects in 14 Pacific Island Countries including FSM. The purpose of the regional project is to **“test the mainstreaming of “ridge -to-reef”, climate resilient approaches to integrated land, water, forest and coastal management in the PICs through strategic planning, capacity building, and piloted local actions to sustain livelihoods and preserve ecosystem services.”**

One of the key project benefits is the development and establishment of a Tofol Area Watershed Management Plan that connects effective management of water, land, forest and coastal ecosystems using a Ridge to Reef Approach. Key elements of the plan include baseline data pertaining to watershed management, diagnostic analysis, implementation plan and Project Monitoring and Evaluation plan for the Tofol Watershed.

In the framework of this project, the consultant shall carry out the following tasks as listed but not limited to:

1. Establish Baseline Data and Prepare Technical Assessment Reports
2. Undertake a Diagnostic Analysis
3. Formulate Integrated Watershed Management Plan
4. Prepare a Consultancy Report & Lessons Learned Report

Deliverables

- **Tofol Watershed Baseline Technical Assessment Reports**
- **Diagnostic Analysis Report**
- **The Tofol Watershed Management Plan**
- **Consultancy Report & Lessons Learned**

Qualifications and Requirements

To be considered for the position, the candidate should have:

- Degree or post-graduate level in environmental or natural resource science including focus on ecosystem management
