This map is not to be used for navigational purposes.

**Description:**

**Atoll: Rongerik**  
**Number of sites: Whole atoll**  
**Ocean: Yes**  
**Land: Yes**

**Total Marine Area: Approx. 1024.74 sq. km**  
**Total Terrestrial Area: Approx. 3.08 sq. km**

**Total Protected Area: 1027.82 sq. km**

What is a Protected Area?  
 A protected area is an area where natural resources are effectively conserved and managed under the rules and regulations set out in a management plan. There are two types of protected areas:  
 Type I – Areas where sustainable subsistence harvesting is allowed. Only very limited commercial use of natural resources is permitted.  
 Type II – This type of area is subject to no-take or a very low level of subsistence or special occasion activities. A high level of protection for biodiversity is provided.
