Put muras name down for IWG

It was a fabulous workshop, great presentations and great information available and please can we have the digital information and documents sent to us of all presentations. Meitaki!

Any other comments or final feedback?

Today was informative and engaging, meitaki.

Looking forward to the one on one consultations

Would have been good to receive a link to the 2002 NBSAP before the workshop. Have feedback about the implementation NBSAP it's trials and tribulations

A thorough review of which activities from the 2002 plan didn't happen and the reasons why identified. This will increase chance of success with the updated plan.

Meitaki
